

ANIMAL KINGDOM

I know we might be stating the obvious here, but Disney's Animal Kingdom Park is the perfect destination for adventure seekers, as well as animal lovers of all ages. This theme park has been a fan favorite since its grand opening in 1998, with classic attractions such as Expedition Everest and Kilimanjaro Safaris Expedition calling it home. Of course the newest additions of Pandora - The World of Avatar, and new nighttime entertainment have made Animal Kingdom theme park an all-day adventure. So let's go exploring!

Our team members at The Park Prodigy have put together this itinerary for you to get the most out of your day at Animal Kingdom! It is updated to avoid long lines and crowds and maximize your time in the parks. One essential aspect to help make the most out of your time in the parks is to A) arrive early and B) leave late when you can. We recommend arriving 45 minutes before the park's opening, allowing you to take advantage of lower wait times on some of the most popular attractions.

This Animal Kingdom itinerary does NOT include the use of Disney Genie+ and does NOT include a midday break. We find it best suited for families with older children and young teens. It's also important to remember that you will have to move some attractions around depending on the time of year you visit and how long the wait for Avatar Flight of Passage is, as this is one of the most popular rides in all of Walt Disney World. We hope you find this itinerary helpful so let's jump right in!
